

# AIR POLLUTION – CARD SORT

Cut out these cards and group them together to give you information about the gases in air.

<b>From incomplete combustion of fuels containing carbon</b>	<b>Use a catalytic converter</b>	<b>Causes acid rain</b>
<b>Causes acid rain</b>	<b>From incomplete combustion of fuels containing carbon</b>	<b>From reaction of nitrogen and oxygen in air at very high temperatures</b>
<b>carbon dioxide</b>	<b>From complete combustion of fuels containing carbon</b>	<b>Ensure there is a good supply of air when the fuel burns</b>
<b>Ensure there is a good supply of air when the fuel burns</b>	<b>From combustion of fuels containing sulphur</b>	<b>soot</b>
<b>nitrogen oxides</b>	<b>Toxic</b>	<b>Blackens buildings</b>
<b>sulfur dioxide</b>	<b>Flue-gas desulfurisation</b>	<b>Burn less fossil fuels</b>
<b>Global warming</b>	<b>carbon monoxide</b>
